UltraLife camera in a Junction Box

UltraLife seriest is especially practical for long term surveillance devices. This module is equipped with low PIR sensor that allows you to monitor places with low activity movements for a long period of time. The module is placed manually to the covert PIR module, which makes it virtually unrecognizable from the real PIR sensor.

PACKAGE CONTAINS

1x Stronic UltraLife
1x Remote control
1x AV out Cable
1x Charging cable
1x USB Charger

QUICK SET-UP GUIDE:

- You have to set the time manually on your SD card with Notepad If you don't have a **external AV display**
- It comes **standardly in PIR mode** detection preset and HD resolution
- To access **OSD menu** you have to connect **AV cable** (resolution, time, length of recordings)
- You also **need external display** to access the **OSD menu**
- By pressing PIR button you will enter STAND BY mode (you can make pictures etc. with remote)
- **Battery charging can take up to 10 hours**
